The perfect machine for every task

Special equipment for special demands

No one task is identical to another. Therefore, we do not simply provide a variety of drives and sweeping width. By adding special equipment, such as a particle filter complying with TRGS 554 for the diesel or a cab safety roof, a second left-hand side broom, a lighting system compliant with road traffic licensing regulations (StVZO) or a flashing beacon and numerous other accessories, you can assemble precisely the machine you need!

Attractive services at attractive conditions

Your investment in Hako pays dividends after just a short time – e.g. through the high level of reliability and low operating costs throughout the machine's entire service life. Hako service options enable you to calculate success even more accurately: The Hako Full Service and Service Contract, available under attractive conditions, ensure fully calculable maintenance costs, comprehensive machine cover and maximum availability at all times!

Simply ask your Hako representatives about our extras and services – they will be pleased to help!
